ENVIRONMENTAL POLICY

ENVIRONMENTAL POLICY OF COLLEGE:

“Green energy a step towards sustainable development”

ENVIRONMENTAL MISSION:

1. Creating awareness among students and teachers in terms of plastic free campus, energy conservation, rain water harvesting and environmental and social outreach programmes.
2. College seeks to reduce consumption of resources, reuse where ever possible and recycle the same.
3. Implementation of proper principles of solid waste management and reduction of environmental pollution.
4. Ensure staff and students receive appropriate environmental awareness training

Scope of the Policy

The college has developed environmental policy which encourages students to take green initiatives. College has taken some initiatives for the green and sustainable energies such as, use of Solar energy, Rain water harvesting, Use of LED bulbs has been implemented by the college. These initiatives make positive impacts on energy efficiency, sustainability and the environment.

The focus areas of this policy are:

- Clean Campus Initiatives
- Landscaping Initiatives
- Clean Air Initiatives
- Infrastructural Initiatives
 - Energy Saving and Energy Efficient Equipment
 - ◆ Solar Power Plant
 - ◆ Water Conservation through Rainwater Harvesting System

- Awareness Initiatives
- Green Audit
- Energy Audit
- Plastic-Free Campus

Objectives of the Policy

- To create awareness among students and teachers in terms of plastic-free campus, energy conservation, Rainwater harvesting and environmental and social outreach programs.
- To reduce consumption of resources, reuse wherever possible and recycle the same.
- To implement proper principles of waste management and reduction of environmental pollution.

Policy:

Nature club Committee

CNCVCW college has established a Nature club committee which encourages all the stakeholders to take green initiatives. Nature club committee takes various activities such as Eco-friendly Lord Ganesha Idol making, Celebration of World Environment Day, Cleanliness drive, etc.

Committee performs various activities in collaboration with Department of Environment Science, develops specific targets to promote, monitor and improve environmental practices and work towards reducing the carbon footprint of the institution.

Clean Campus Initiatives

CNCVCW college under the NSS and Nature club committee actively coordinate cleanliness activities in the college and beyond the campus in accordance with the vision of Swachh Bharat Abhiyan. It commits to continue with this Programme.

The vision of the college is Generating mass awareness on cleanliness and hygiene amongst students and staff members.

Activities under 'Swachh Bharat Abhiyan' will be a key component of all the community work being done by NSS and Nature club volunteers. College conducts Rallies on themes connected with 'Swachh Bharat Abhiyan' in and around the college campus to create mass awareness.

Clean Air Initiatives

We encourage our students and staff to use public transportation. We encourage carpooling to college, an activity that will control air pollution and strengthen social interaction. Our campus is also located in the center of the city, and is easily available to travel through public transport.

Infrastructural Initiatives

◆ Renewable Sources of Energy

CNCVCW is dedicated to minimize and sustainably manage its use of electricity. The college believes in reducing the consumption of electricity produced by non-renewable resources by switching to clean energy sources like solar energy for purposes like lighting the campus.

◆ Energy Saving and Energy Efficient Equipment

We commit to install environment-friendly electrical appliances that save energy and reduce wasteful inefficiencies. The college believes in using cleaner energy such as LED lighting.

◆ Water Conservation through Rainwater Harvesting System

Our institution has installed Rain water harvesting system for the recharging of existing water table level. Thereby, reduces surface runoff and enhance in filtration.

Awareness Initiatives

Outreach and education are of utmost importance so that all members of the campus community may value the objectives of the policy and aid in its implementation. Therefore, college supports and encourages awareness campaigns, seminars, workshops and other interactive sessions to facilitate effective implementation of the Green Campus, Energy and Environment policies.

Environment-centric Student Societies and Department Activities

JMC encourages all the departments and specific student societies like Nature club committee, NSS and Department of Environment Science organize events and competitions that will bring about positive environmental changes at the grassroots level.

Conduct Environment . Green Audit and Energy Audit

The college aims to regularly conduct Environment and Green Audit of our college campus to assess our strengths and weaknesses to further our goals of long-term sustainability. These audits is a useful tool to determine how and where most energy or water or resources are being used. It provides a better understanding of the impact of eco- friendly practices on campus. Green auditing will promote financial savings through reduction of resource use. It is imperative that the college evaluate its own contributions toward a sustainable future. An Energy Audit is conducted on regular basis to reduce the carbon footprint.

Plastic-Free Campus

College arranges plastic free campus activity to reduce the use of plastic in the campus and otherwise as well.
