

Prof. Dr. A. D. SHINDE
Founder

Dr. R. A. SHINDE
Secretary & Managing Trustee

Two institutional reviews and implementation of teaching learning reforms facilitated by the IQAC are:

1. The IQAC of College continuously reviews and takes necessary steps to upgrade the teaching-learning process. The Academic Calendar is well prepared for the ready reference of teachers and students which is displayed on the Institute website and being followed. For all newly admitted students, college IQAC organizes Orientation Program, in which they are made aware of the college philosophy, the uniqueness of the education system, the teaching learning process, the system of continuous evaluation, compulsory courses, various co-curricular activities, discipline and culture of the institute, rules and regulations of institute, etc. Timetable is prepared at the beginning of academic year and is displayed on Notice Board.

IQAC has a systematic method of monitoring effective delivery of curriculum, completion of syllabus and feedback from stakeholders. A systematic Continuous Internal Evaluation mechanism is implemented. Also slow learners and advanced learners are identified and accordingly they are guided. The outcome of this is reflected as an incremental change in the merit of the students.

In the monthly departmental meeting feedback related to completion of syllabus is discussed which is further shared during the general staff meeting and the same is reported to the IQAC. Based on its observation, the details are shared with concern teachers for improvement. IQAC monitors the overall teaching and learning process by collecting feedback from stakeholders related to curriculum.

2. Curriculum and Content Management System: A paradigm shift in the teaching learning process is the need of the hour. The new generation students have the expectations to learn using ICT facilities than conventional teaching methods. In order to implement the above objectives, the e-learning process is initiated by IQAC. Number of computers in the college has increased from 50 to 80 in 2021-22. This facility aided the faculty members to develop e-contents for better understanding of students. The classrooms are facilitated with DLPs for teaching learning process. The experiential and experimentation learning, field work, internship, demonstration, project based learning methods are also used for the better outcomes. Thus, IQAC has setup the norms and records the incremental improvement in various activities.
