VFX Workshop Report

2018-2019

In filmmaking, visual effects (VFX) is the creation or manipulation of any on-screen imagery that does not physically exist in real life. VFX allows filmmakers to create environments, objects, creatures, and even people that would otherwise be impractical or impossible to film in the context of a live-action shot. The workshop of VFX was held from 2nd of January 2019 to 2nd April 201 for BMM.

As per schedule the program started on time. The introduction of representatives Mr. Mane was done by Our coordinator Miss. Renuka Chavan in the presence of Hon. Principal A.R.Kulkarni CNCVCW,CSIBER.

The session was from 2.30 pm to 4.00 pm daily. For three months students were taught the roto process which is basic part of VFX learning. Notes were given of each session and the workshop was ended by giving certificate to each student.
